

# TAZ Security Care – Endpoint Protection

*Rapidly identifies and halts active threats and attacks.*

*\$1 million ransomware warranty for true peace of mind.*

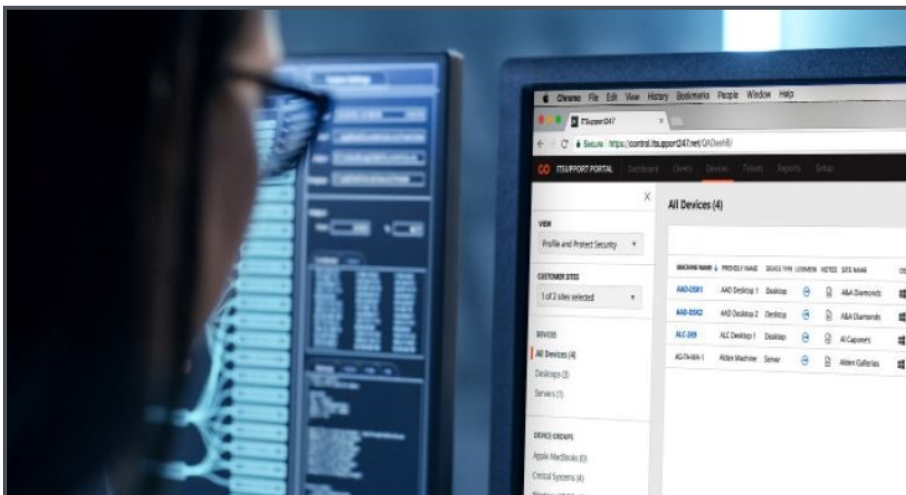

TAZ Security Care Endpoint Protection provides fully supported endpoint monitoring and threat detection to identify active threats and remediate attacks. This service adds an additional layer of security to rapidly identify and halt even the most sophisticated attacks, minimizing harm and reducing risks.

Protect against cyber attacks with analysis, monitoring, and threat intelligence, powered behind the scenes across endpoints and networks. TAZ Security Care Endpoint Protection identifies threats to help you meet regulatory requirements with a fully-integrated range of response and remediation, keeping your network and data safe 24/7.

## **Cybersecurity – Don't Go It Alone**

The global cybersecurity workforce is predicted to have more than 1.5 million unfilled positions by 2020, and the need for skilled security professionals will only continue to grow. With TAZ Security Care, you can rest assured knowing that your network is as secure and protected as it possibly could be.

Integrating managed cybersecurity with your other managed network services is a smart move. TAZ Security Care and Complete Managed IT Care work together in the background to provide a seamless, all-in-one network protection solution.

**TAZ Security Care Endpoint Protection rapidly detects and halts attacks, and provides a \$1 million ransomware warranty for true peace of mind.**
